**Bridging pharmaceuticals and skincare,
we aim to make effective low-irritation products.**

We began with the belief that medicine and cosmetics are closely connected.
By exploring the narrow overlap between medicine and cosmetics,
we apply medical principles to the sensory experience of skincare.

**High efficacy, without irritation. Based on this standard,
we deliver downtime-free skincare solutions.**

Hospitals • Dermatology Clinics • Pharmacies Chose Us First.

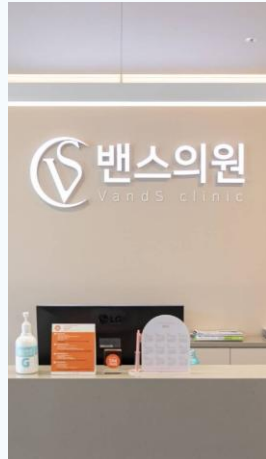

Dermatology specialists personally evaluated and approved each listing.
Expert validation proves Abso's technological excellence.

Abso. Product line-up

✓ Topical Skin-Botox Ampoule

Clear Skin, Oil-Moisture Balance, Hydration, Sebum Control, Soothing

A high-tech skin remodeling ampoule that delivers botulinum-derived actives into the skin — not the muscle — to recreate the effects of skin-botox, a trending clinical procedure for a flawless glass-skin glow.

✓ Acne-Bacteria Targeting Mist

Acne Care, Sebum Control, Soothing

A mist toner applied after cleansing, designed to suppress acne-causing bacteria and replenish skin-beneficial probiotics, helping break the cycle of recurring breakouts.

✓ 22% High-Concentration Brightening Ampoule

Brightening, Dark Spots, Even Tone, Clear Skin

A 22% low-irritation brightening ampoule formulated with Niacinamide 15%, TXA 5%, Alpha-Arbutin 2%.

✓ Bio-Band Skin Repair Cream

Post-Irritation Recovery, Barrier Repair, Intensive Hydration

An intensive repair cream powered by MSM, TECA, and PDRN bio-synergy with 5% Dex-panthenol to stabilize and restore compromised skin.

✓ Deep Hydration Glow from a Burn-Care Grade Sheet

Hydration, Radiance, Soothing, Cooling, Texture Care

A skin-booster mask pack that delivers deep hydration and radiance — powered by urea, azulene, and glutathione held within burn-care grade biocellulose fabric

✓ SPEC

Topical Micro-Botox Ampoule

Clear Skin

Oil—Moisture Balance

Hydration

Sebum Control

Soothing

A high-tech skin remodeling ampoule that delivers botulinum-derived peptides into the skin — not the muscle — to recreate Micro-Botox effects.

- + Key Ingredients : Botulinum-derived Peptide, TECA, Allantoin
- + Brightening & Wrinkle-Improving Functional Formula
- + Dermatologically Tested
- + Clinically Tested for : Soothing, Sebum Reduction, Texture & Oil-Moisture Balance Improvement

✓ Solution for

Designed to address needle pain, muscle-related risks, and toxin resistance — enabling clinical procedures to be done in home without pain, resistance, or downtime.

- + Advanced delivery technology allowing absorption without injection.
- + Formulated to act safely within the epidermal layer.
- + Abso uses purified MTD toxin with resistance-inducing domains removed.

Skin-targeted botulinum effect

By modulating acetylcholine activity at epidermal nerve endings, it helps reduce inflammatory responses and excessive sebum production.

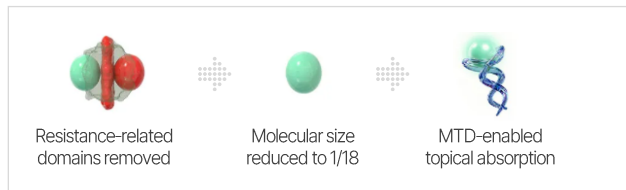

13-year twin tracking study

A 13-year twin study showed that consistent botulinum treatment helped to maintain younger, healthier skin. Beyond wrinkle reduction, it supports long-term skin preservation.

Source: Binder WJ. Long-Term Effects of Botulinum Toxin Type A on Facial Lines. Archives of Facial Plastic Surgery. 2006;8:426-431.

Abso's core ingredient: MTD Botulinum Peptide

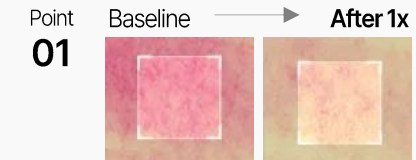

The toxin was refined by removing resistance-related domains and reducing molecular size to 1/18, combined with MTD technology to enable epidermal penetration.

Clinical Proof

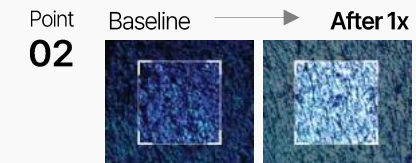

- + Reduced sebum, increased hydration
- + Less redness and breakouts
- + Rapid soothing & barrier support
- + Refined pores & smoother texture

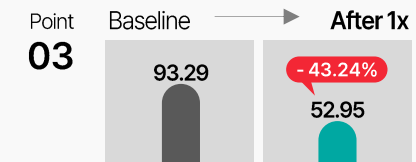

+ Soothing improvement from external irritation

491.82%

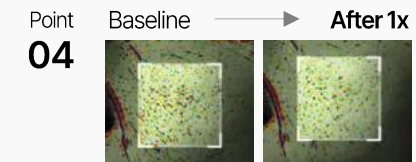

+ Oil-Moisture Balance Improvement

232.33%

+ Sebum Reduction

43.24%

+ Skin Texture Improvement

108.63%

Abso. TROUBLE BIOME CARE MIST TONER

Harmful Bacteria
Suppress
Beneficial Bacteria
Rebuild

✓ SPEC

Acne-Bacteria Targeting Mist

Acne Care

Sebum Control

Soothing

Delivers two flavonoids that target acne-causing bacteria, along with three skin-beneficial probiotics to restore a breakout-prone microbiome.

- + Key Ingredients : Propolis, Quercetin, Bifida, Lactobacillus, Lactococcus, TECA, Tea Tree
- + Tested Suitable for Acne-Prone Skin
- + Dermatologically Tested
- + Clinically Tested for : Improvement of Non-Inflammatory Lesions, Improvement of Inflammatory Lesions, Reduction in Acne Severity Grade, Soothing of Troubled Areas, Sebum Reduction

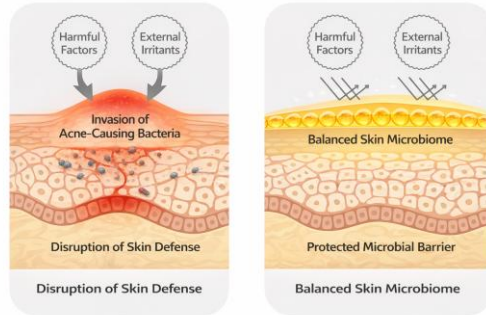

✓ Solution for

A post-cleansing solution designed to restore a disrupted skin microbiome caused by reused towels, unclean hands, and infrequently washed pillowcases —helping rebalance skin health.

- + Uses flavonoids instead of alcohol to support natural anti-inflammatory activity
- + Formulated with three beneficial probiotics to help rebuild a balanced skin microbiome
- + Fine mist spray enables no-touch application —no rubbing required.

Abso. TROUBLE BIOME CARE MIST TONER

Beyond temporary relief —bio-care that transforms the skin environment.

Skin troubles are not merely reactions to irritation. Acne occurs when a skin environment favorable to harmful microorganisms is repeatedly maintained.

Abso approaches breakouts not as symptoms to calm, but as ecosystem imbalances to manage.

Suppress Harmful Conditions, Restore Healthy Balance

STEP 1. Inhibit Harmful Microbial Growth

Flavonoid-based formula
Helps reduce trouble-causing conditions

STEP 2. Restore Beneficial Balance

Balanced blend of 3 probiotics
Supports barrier and skin stability

STEP 3. Immediate Soothing Support

Tea Tree + TECA synergy
Helps calm sensitive skin fast

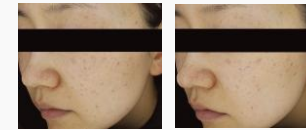

✓ Clinical Proof

Before → After

- + Excess Oil Reduced
- + Clogged Sebum Reduced
- + Rough Bumps Reduced
- + Irritated Areas Calmed

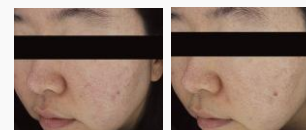

Point 01 Baseline → After 1x

- + Non-Inflammatory Lesions Improved

Abso. NTA 22+™ TONING AMPOULE

High-Contentration
Low-Irritation
Brightening
Starts Here

✓ SPEC

22% Active Ingredients —

Market's Highest-Concentration, Low-Irritation Brightening Solution

Dark Spots

Melanin Reduction

Watery

Tone-Up

Low-Irritation

A low-irritation functional brightening ampoule with market-leading concentrations of Niacinamide 15%, Tranexamic Acid 5%, and Alpha-Arbutin 2%, absorbed quickly in a lightweight, hyper-watery formula.

- + Key Ingredients: Niacinamide, Tranexamic Acid, Alpha-Arbutin
- + Maximum Brightening & Anti-Wrinkle Efficacy
- + Low-Irritation Tested
- + Clinically proven: dark spot & melanin hyperpigmentation reduction, skin tone improvement, zero skin irritation

✓ Solution for

An ultra-high-concentration brightening ampoule that stabilizes three otherwise incompatible actives in a lightweight formula and texture

- + Advanced formulation technology stably blending Niacinamide 15% + TXA 5% + Arbutin 2%
- + Hyper-watery texture for rapid absorption
- + Zero-irritation formula designed for repeated layering on targeted areas

Abso. NTA 22+™ TONING AMPOULE

Ultra-High-Concentration Formula Designed for Real Brightening

N 나이아신아마이드
Niacinamide — **15%**

T 트라넥삼산
Tranexamic Acid — **5%**

A 알파 알부틴
Alpha-Arbutin — **2%**

Many brightening products highlight their ingredients, but achieving a high-concentration formula that delivers real results is challenging.

As concentrations of Niacinamide, Tranexamic Acid, and Alpha-Arbutin increase, maintaining ingredient stability while balancing formula integrity demands advanced expertise in technology.

Abso has formulated all three core brightening actives at efficacy-driven concentrations, achieving a stable, low-irritation formula.

Fast-Absorbing Watery Texture

Despite the ultra-high concentration, the texture is remarkably lightweight.

Considering that 1/5 of the formula consists of solid active ingredients, this light texture is a testament to the proprietary technology behind it.

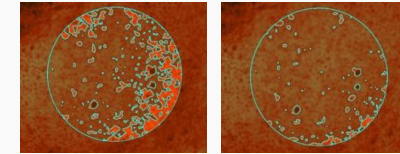

Zero-Irritation Test Completed

에이스피부임상연구소 [관리번호: ASC-2602-S018]			
연구 결과	피부 자극 지수 및 피부 자극도 판정 결과		
	제품명	피부 자극 지수	판정 결과
	엠소 엔티에이 22 토닝 앰플	0.00	비자극 (Excellent)

Unlike high-irritation retinol or Vitamin C products, this formula is designed so that even sensitive skin can achieve superior brightening safely.

✓ Clinical Proof

Before → After

- + Reduction in dark spot & blemish area
- + Reduction in deep melanin area
- + Reduction in surface melanin
- + Increased brightness of skin tone(cheek)

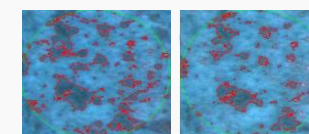

Point 01 Baseline → After 2 Weeks

- + Reduction in dark spots & hyperpigmentation area

34.54%

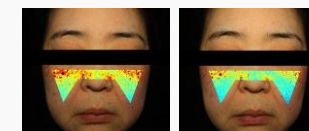

Point 02 Baseline → After 2 Weeks

- + Reduction in deep melanin area

24.05%

Point 03 Baseline → After 2 Weeks

- + Reduction in surface melanin distribution

7.10%

Point 04 Baseline → After 2 Weeks

- + Skin tone improvement

101.98%

Abso. **BIO-BAND™ REPAIR CREAM**

Post-
Procedure
Repair
Band

✓ SPEC

A repair cream that covers post-procedure skin like a bandage

Damage Recovery

Post-Procedure Care

Barrier Protection

Itch Relief

Low-Irritation

An intensive repair cream for severely compromised skin, powered by BIO-BAND™ Active — a complex of MSM (dietary sulfur), PDRN, and TECA — to accelerate skin regeneration, while D-Panthenol soothes irritated skin.

- + Key Ingredients: D-Panthenol, Squalane, MSM, PDRN, TECA
- + Certified Brightening & Anti-Wrinkle Efficacy
- + Low-Irritation Tested
- + Clinically proven: itch relief, physically-induced damage improvement, deep hydration improvement, redness reduction, zero irritation

✓ Solution for

For post-procedure skin where skin barrier disruption leads to dryness and sensitivity

Formulated with the most critical actives for recovery — working like a bandage applied to damaged skin

A lightweight texture that defies the stereotype that “repair creams are heavy”

- + MSM's anti-inflammatory properties prevent skin flare-ups, while PDRN and TECA support regeneration
- + A non-greasy formula that gently cares for compromised skin
- + After procedure-induced irritation, when dryness or breakouts destroy the skin barrier, or as a nightly step to restore skin condition

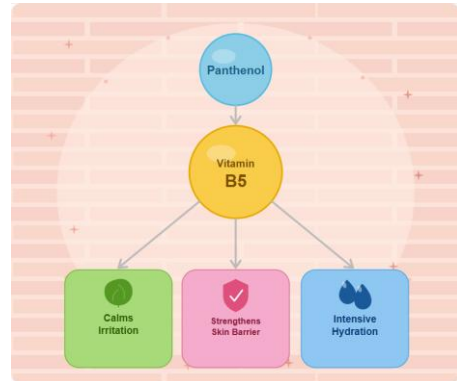

Abso. BIO-BAND™ REPAIR CREAM

BIO-BAND™ = MSM + TECA + PDRN

Inspired by therapeutic sulfur springs, long revered for healing skin conditions, MSM (dietary sulfur), TECA, and PDRN are combined to create an environment where damaged skin can recover rapidly — like applying a biotech-powered bandage.

Immediate Skin Repair Effect of D-Panthenol

The panthenol used is D-Panthenol (not L-Panthenol) which converts to Vitamin B5. Formulated at 5% high concentration to deliver immediate soothing hydration and barrier reinforcement.

A non-greasy formula suitable for use even after clinical treatments

A clean, non-greasy texture that breaks the stereotype of heavy repair creams — suitable for use even directly after harsh clinical procedures.

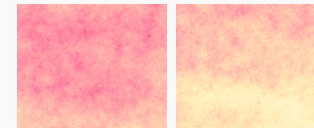

Clinical Proof

Before → After

Compromised Skin
260% Improvement

- + Barrier repair & soothing
- + Relief from tightness through hydration
- + 65% improvement in itchiness
- + Immediate hydration

Point 01 Baseline → After 1x

- + Barrier improvement from physical irritation

260.74%

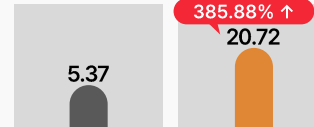

Point 02 Baseline → After 2 Weeks

- + Itchiness relief improvement

65.59%

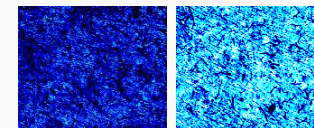

Point 03 Baseline → After 1x

- + Skin soothing from physical irritation

Point 04 Baseline → After 2 Weeks

- + Deep hydration improvement

107.57%

Abso. HYDRAGLOW™ BIO-SKIN MASK

Instant Recharge for Dull, Lifeless Skin
Dewy Hydration Glow Mask Pack

✓ SPEC

Deep Hydration Glow from a Burn-Care Grade Sheet

Hydration

Radiance

Soothing

Texture Care

Non-Irritating

Cooling

A biocellulose sheet — clinically used in burn care for its skin-protein-like structure — adheres fully to skin, while urea, azulene, and glutathione coated on the fabric create 360° hydration and radiance as a skin-booster pack

- + Key Ingredients: Urea, Azulene, Glutathione
- + Skin brightening and wrinkle improvement efficacy
- + Hypoallergenic tested
- + Diamond zone radiance, moisturizing, texture improvement, skin temperature reduction & multi-care clinically verified

✓ Solution for

A next-gen mask that breaks the low-essence norm — biocellulose fabric holds a high concentration of essence, overcoming the weak absorption of hydrogel and the fast-drying issue of non-woven sheets.

An intensive routine that transforms dull, stressed skin into clear and luminous skin

- + Urea gently infuses moisture into the skin while violet azulene absorbs deep beneath the surface
- + Stays tightly adhered without gaps, slowly absorbing essence over an extended period
- + For those who want a soft, clear water-glow instead of a greasy, oily shine

Abso. HYDRAGLOW™ BIO-SKIN MASK

Urea + Azulene + Glutathione

Urea, a prescription-grade moisturizer, combines with violet-hued soothing azulene and glutathione to create a clear, non-greasy water glow.

Biocellulose Adhesion & Cooling Effect

Regular Mask Sheet

Gaps form along skin contours, leaving areas uncontacted

Abso Bio-Skin Sheet

Adheres perfectly even to curved skin, delivering nutrients with zero gaps

Biocellulose fabric holds 10x more moisture than non-woven sheets, allowing the skin to absorb essence fully over a longer period.

4th-Gen Biocellulose Fabric

Hydrogel solidifies essence and slows absorption; non-woven sheets lift and dry quickly, reducing contact time.

That's why 4th-gen biocellulose fabric is the answer for intensive care.

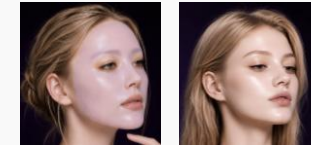

✓ Clinical Proof

Before → After

**Diamond zone
radiance
improvement**

- + Radiance improvement across forehead, nose, cheeks & chin
- + Skin temperature reduction effect
- + Improved skin hydration and texture

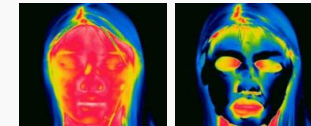

Point 01 Before → After 1 Use

- + Radiance improvement across forehead, nose, cheeks & chin

121~131%

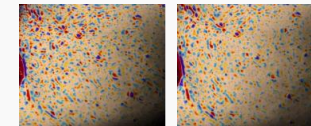

Point 02 Before → 30 Min After Use

- + Skin temperature reduction effect

- 7.5 °C

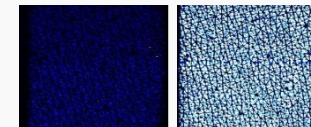

Point 03 Before → After 1 Use

- + Improved skin hydration and texture

108.43%

Point 04 Before → After 1 Use

- + Non-irritating tested
