Brand Identity

* *Where Science Meets Personal Wellness*

"Formula" represents scientific precision.

"In" represents you—your lifestyle, your needs, your goals.

Formula:In blends the two to create truly personal health formulas.

Not generic supplements, but targeted solutions built around the realities of everyday life.

Personalized Functionality

We never rely on a single ingredient.

Instead, we design smart, multi-functional blends based on individual concerns—from metabolism and digestion to skin balance, energy, and restful sleep.

Every product begins with a clear purpose:

"What specific problem can we solve for you?"

Consistency becomes effortless—because taking them is genuinely enjoyable.

Brand Line-up

* *Tablets. Softgels. Liquids. Fast-melting powders. Chewable candies.*
